

# Fast, Efficient Packaging Solutions

**Improve packaging efficiency and appearance** with EDL Packaging Single Roll Wrapper technology. Designed to operate with pad, tray, and unsupported products.

## SINGLE ROLL WRAPPER

- A combination of flexibility and quality for applications in the food, beverage and consumer product industries
- Continuous motion enhances output and improves container stability
- Modular construction ensures cost effective design with flexibility to adapt to required specifications
- Servo controls deliver repeatable results and simplified changeover
- Speeds up to 40+ cycles per minute with clear, randomly printed, or registered LDPE film
- Integrate with a wrap around tray former for a complete packaging solution

*Engineered to wrap product efficiently & create a visually appealing packages in a bullseye format*

### FOOD CONTAINERS

Cans, jars, bottles, and cartons

### BEVERAGES

Loose pack, Hi-Cone, and cartons

### CONSUMER

Containers, jars, and cartons

## MACHINE OVERVIEW

- Independent servo controlled film feed & cut and film application
- Multiple shrink tunnel lengths available to accommodate different throughput rates
- Available in-line or side-load film cradles with optional loading hoist and splicer

Scan with your smart phone or tablet to watch a live demo of the Single Roll Wrapper.

## TAILORED PACKAGING MACHINE DESIGNED TO MEET YOUR PRODUCT AND FACILITY NEEDS

Engineering experts work with you to understand your product, packaging and facility needs, and design the machine to meet your requirements.

- Optimize production space with a customized system tailored to your needs

Standard Film Widths: Up to 22"

Optional Film Width: Up to 32"

Film Roll Diameter: Single roll, up to 20" diameter

Film Gauge: 1.25 to 3 mil, Low Density Polyethylene (LDPE)
